Location	Morehead High School	Reidsville High School	Rockingham Community College	Rockingham County High School	McMichael High School	Reidsville High School
Program Description	The Health Science Academy at Morehead High School seeks to meet the needs of a quickly expanding and evolving health care system. It is a program that recruits qualified and motivated students and prepares them for high wage and high skill health care careers.	The Creative Design and Arts Academy was developed to prepare students for careers within an array of design oriented fields. The Academy will prepare students with the foundational visual design skills, design thinking, and computer aided design skill that will prepare them for careers in fields such as graphic design, apparel design, interior design, animation and game art design.	Early College Students receive instruction from both high school and college faculty and all classes are held on the Rockingham Community College campus. Students have an opportunity to earn an Associates degree and high school diploma in this five year program.	The Public Safety Academy prepares students with the skills and knowledge necessary for entry into a post-secondary Fire Science or Emergency Medical Technician program and relatively immediate employment in those fields. Students will also be prepared to serve as volunteers in the community.	STEM is an acronym for science, technology, engineering, and math. The Phoenix STEM Academy fosters the development of strong content knowledge in math and science along with the design thinking and technical skill that will prepare students for Careers in STEM related Fields.	The IB program offers a quality curriculum that encourages critical thinking by the study of traditional disciplines while encouraging a global perspective. It is designed for the academically motivated student who can function independently and has learned to manage time well.
